Technical Skills

Frontend Ecosystem: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap.

State & Data Management: Redux Toolkit/Context API, REST APIs, Socket.io.

Backend & Database: Node.js, Express.js, MongoDB.

Tools & Workflow: Git/GitHub, Postman, Vite/Webpack, Chrome DevTools.

Professional Experience

Frontend Developer | Nians (formerly Technians) | Gurgaon

Jun 2024 – May 2026

- Engineered and maintained highly responsive user interfaces for **8+** major client platforms, including Apollo Hospitals, EID Parry, and Medijourn.
- Designed and deployed **7+** high-converting landing pages for various brands, ensuring strict adherence to mobile-first design principles and cross-browser compatibility.
- Implemented high-performance JavaScript and CSS animations using GSAP and AOS across multiple client websites (including MSO, Skuccii, and LordsPth) to elevate user engagement and deliver highly interactive web experiences.
- Integrated RESTful APIs and optimized frontend rendering performance by implementing code-splitting, lazy loading, and efficient state management, reducing initial page load times.

Teaching Assistant | Coding Ninjas

Mar 2024 – Jun 2024

- Conducted targeted doubt-clearing sessions to mentor students through complex web development concepts and coursework.
- Actively debugged student code, troubleshooting issues across HTML, CSS, JavaScript, and the MERN stack to resolve technical bottlenecks.
- Provided dedicated, hands-on support to help students successfully build and deploy various assignments and full-stack projects.

Projects

Real-Time Chat Application | NodeJs, ReactJs, Socket-io

Git-repo

Live Demo

- Engineered a responsive React.js single-page application utilizing custom hooks to seamlessly listen, capture, and render live WebSocket event streams with zero UI lag.

Easily job portal | NodeJs, ExpressJs, MongoDB, EJS, Multer, Nodemailer

Git-repo

Live Demo

- Developed a full-stack MVC-architecture job board allowing recruiters to securely post listings and manage applicants.

Animated GSAP Royal Diamonds | JavaScript, GSAP, CSS

Git-repo

Live Demo

- Designed a highly interactive, visually striking frontend interface utilizing GSAP to showcase advanced DOM manipulation and scroll-triggered animations.

Education

Master of Computer Application(MCA) | Gurgaon University

Aug 2021 – Jun 2023

Bachelor of Computer Application(BCA) | MDU University

Aug 2018 – Jul 2021

Certifications & Training

- MERN Stack Web Development Specialization** | Coding Ninjas
- Web Designing Specialization** | Anudip Foundation
- C++ Programming Training** | TCA

Interests & Digital Pursuits

- Digital Aesthetics & Photography:** Passionate about visual design, capturing photography, and creating custom digital assets, which strengthens my eye for frontend UI/UX layouts.
